Exaugural Address

By Donald W. Cushing

Delivered on January 4, 1965

For the past two years, I have had the high honor of serving as your Mayor. This has been a rich and rewarding experience for me. I have thoroughly enjoyed conducting the affairs of the City and representing you at various civic and social events. In making decisions and recommendations, I have tried at all times to promote the best interests of the City. I sincerely thank you, the people of Franklin, for giving me the honor of serving as Mayor.

At this time, I would like to review some of the accomplishments of this administration in 1964.

The word "Planning" was given real significance in Franklin during the past year. Our preliminary sewer planning project, made possible by a Twenty-Three Thousand Dollar interest-free loan from the federal government, has been completed. The written report and recommendations of our consulting engineers to be received this month will be invaluable in making plans for expansion of our sewer system and in preparing for construction of interceptor sewers and sewage disposal facilities in the not too distant future.

In 1964, the City appropriated and paid over to the State of New Hampshire the sum of Six Thousand and Three Hundred Dollars for our share of an Eighteen Thousand and Nine Hundred Dollar general planning program for the City. Our Planning Board has selected a planning consultant, and it is expected that this program will be conducted this year. The information and recommendation obtained through this program will be a valuable guide for the future development of the City. It is hoped that it will also provide the necessary basis for a workable and effective zoning ordinance.

We continued our policy of friendly cooperation with our industries. At my recommendation, the Council appropriated the necessary funds for the construction of a new 500,000 gallon water reservoir off the Salisbury Road. It is expected that this project will provide the necessary water pressure and volume to solve a serious fire prevention problem of one of our leading industries and also help to promote industrial growth in the South Main Street area.

The wages of our city employees were raised in 1963. This past year, we appointed a citizens committee to study wages, and wage increases were granted in accord with the recommendations of the committee.

Our street lighting committee continued its program of improving our street lighting. One thousand lumen incandescent lights were converted to 3500 lumen mercury vapor lights in all of Daniell Park, lower Sanborn Street, Aiken Avenue, Beaton Street and East and West Bow Streets.

Our program of highway improvements this year included laying new hot top surfaces on Church street, Orchard Street and East and

West Bow Streets, and the construction of twenty-five hundred feet of new sidewalks.

With the purchase of a new grader, loader, back hoe, and three new trucks, our highway equipment is now in the highest state of readiness that it has been in for many years.

New street signs have been erected on all streets in Daniell Park and at all Central Street intersections. These attractive signs not only point out the streets but also point to a progressive city.

Subdivision regulations have been established which should make uniform the policy of the City in regard to acceptance of new streets.

All engineering survey and study was made on Daniell Bridge. No action was taken on the recommendations made by our consulting engineer, and it is one of the serious problems we have passed on to our successor.

Major changes were made in our police department. A new chief was appointed on a one year probationary basis. This appointment was made after an open competitive examination and after interviewing all qualified candidates. We feel that the City has taken a giant step forward in improving our police protection and in laying the groundwork for an efficient and capable police department.

If this administration has met with any success, it has been due to the hard work of the members of the Council, our city officials and many of our citizens who gave us their advice and cooperation. I sincerely thank each one of you. I also wish to thank my wonderful wife for the many sacrifices she has had to make during the past two years. Above all, thank you, for your prayers.

Inaugural Address

By Roland J. Desrocher

Delivered on January 4, 1965

Seventy years ago tonight Mayor Frank N. Parsons delivered his inaugural address as the first Mayor of the City of Franklin, I wonder what he would say if he could be here with us tonight. Would he be amazed at the sight of his community as it is now? Would he be pleased with the progress and growth that has been accomplished? Would he be proud of us, the citizens of Franklin of 1965? I think he would for Franklin has come a long way since 1895.

Tonight the City of Franklin starts its seventieth year. Since 1895 thirty-two different men have guided the course of this community as its Mayors. Countless others have served it well as councilmen, school board members, park commissioners, water commissioners, etc. To all of these people we owe a great debt of gratitude for it is these individuals who by giving untiringly of themselves to the service of their community that have made Franklin what it is today—a fine place in which to live, work and raise our families.

As we embark on another year in history let us hope that we can be as fortunate as those of the past. Let us hope that our community spirit, our actions, our decisions will be the proper ones. If we are fortunate and God is with us then I am sure that Franklin will continue on the road to prosperity and will one day achieve its rightful place in history.

Here in Franklin we are blessed with many of the things that are needed for a healthy growing community. We have a good location, good climate, good sound industries, good schools, fine churches, an abundance of water, varied recreation activities, but above all we have good solid, intelligent, industrious, God-fearing people which is the biggest asset that any community can have. All that remains to be done is for all of us to work together, to forget our petty differences and our own personal ambitions, and our community will forge ahead and we and our children will reap the benefits.

During the coming year many important items will confront us. As they do, we must each of us study the matter carefully, we must consider the benefits and drawbacks from all angles and then we must come to our decisions. As we study these items let us not be overly swayed by the small pressure groups either for or against, but rather let us consider each item as it affects the entire community for the whole community is what we serve.

One of the most difficult tasks which will confront us this year is how to achieve some economy in government. By economy I do not mean the curtailment of any service to the community but rather an increase in service to the community without an increase in spending. In other words it is a matter of costs. We must try to reduce our costs of government by increasing the efficiency of government. In this day and age costs and efficiency go hand in hand. It

is very easy for any department to give better service by adding more help or buying more equipment - anyone can do this. What must be done is for each department to try to give more and better service to the community by better utilizing the personnel and equipment which is presently available.

During the past few years the city departments have received much new equipment, some of which was replacement for worn out equipment. I believe that most of the departments are now in good shape so far as equipment and personnel are concerned. Departmental requests for appropriations are going to be very carefully scrutinized. Department heads are going to be quizzed about their requests and are going to have to really justify any requests for new equipment or personnel.

Sometime during this coming year the city will be taking over the old Armory. This is going to be an important step for us to undertake. Three years ago when the matter of a new armory was first brought up it was suggested that the old one could be purchased by the city for use as a recreation center. I was in favor of that at that time and I am still in favor of it but just how this should be accomplished is the big question in my mind now. This matter will require much study and I will be working very closely with the Land and Buildings Committee on this.

The report on sewer planning is due to be presented to us sometime this month. Here is another matter which must be given very careful consideration. It will be a very lengthy and thorough report and will therefore require considerable time in the study of it. This matter is of such great importance that it will not be referred to any committee but rather will be considered by the entire council sitting as a committee of the whole.

Planning will get underway on a full scale sometime this year, early I hope. Full scale planning is a necessity for an active and growing community, just as much as it is for industry or the home. I am very happy to see this come about and I am certain that the Council will cooperate fully with the Planning Board.

Another item to which we must give careful consideration is the subject of bridges. There is a report on the study made of the Daniell Bridge and we must consider this subject at great length before coming to any decision. However, a decision should be reached within the next three months as to what our course of action will be.

We have discussed some of the problems which will be facing our city this year. I do not want to take all night so I have touched only on some of the important ones. There are many many others which will come up for consideration during the year and I hope that the Council will give all of them the same serious consideration.

In closing I want to take this opportunity to wish each of you a very Healthy, Happy, and Prosperous New Year.

Auditors Report

CITY OF FRANKLIN, NEW HAMPSHIRE

FOR THE YEAR 1965

January 21, 1966

To the Honorable Mayor and City Council
City of Franklin
Franklin, New Hampshire

Gentlemen:

Complying with our agreement, I have made an examination of the books and underlying records of the City of Franklin for the year ended December 15, 1965 and, am submitting in this connection, my report consisting of exhibits and supporting schedules.

SCOPE OF AUDIT

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and of the supporting evidence as was considered necessary under the circumstances. A substantial number of verification letter were mailed to the open accounts on Property and Poll Taxes. Except for the Taxes, Accounts Receivable and some year-end adjustments, the general books of the City are kept on a cash basis and hence reflect cash receipts and disbursements only.

BALANCE SHEET — GENERAL FUND

EXHIBIT A

The Balance Sheet, General Fund, presents the financial condition of the City of Franklin as at the close of business December 15, 1965. Exhibit A, Schedule 3 is a Comparative Balance Sheet showing the increases and decreases in the various accounts between the years 1964 and 1965.

CASH ON HAND AND IN BANK - \$8,342.98

The cash on hand was verified by count while the cash in the bank was reconciled to both the bank statement and the independent confirmation received directly from the depository. All checks cancelled during this period were compared with the cash disbursements records and the receipts were traced to the bank deposits.

ACCOUNTS RECEIVABLE — \$262.93

ACCOUNTS RECEIVABLE —

PARKING AREA CONTRACTS — \$4,277.90

The balances were listed and the total found to be in agreement with the General Ledger control. The Accounts Receivable, Parking Area Contracts are aged as follows:

1960	\$522.40
1961	709.90
1962	832.90
1963	624.10
1964	684.10
1965	904.50
	\$4,277.90

Some of the accounts appear uncollectible and I would urge the Council consider abating them, particularly those which no longer have a place of business in Franklin.

TAXES RECEIVABLE — \$145,326.20

Exhibit A, Schedule 1 shows the activity in the Taxes Receivable account. The cash receipt stubs representing collections on Poll, Property and Head Taxes were checked to the cash receipts records. Both the cash receipts and the abatement postings to the Tax Warrants were tested. Several hundred verification letters were mailed to the open accounts and any differences reported to me were thoroughly investigated. A substantial number replied concurring with the balances carried on the books.

The 1965 Tax Warrant was completely footed and compared with the Tax Warrant control. The tax rate of \$52.50 per thousand was confirmed directly with the New Hampshire State Tax Commission. Approximately 85% of the 1965 Property Tax was collected as compared with 87% the preceding year.

UNREDEEMED TAX SALES — \$17,830.51

PROPERTY ACQUIRED BY TAX DEED — \$1,602.99

These items were accepted as shown on the books and represent property acquired because of nonpayment of taxes.

HEAD TAXES RECEIVABLE — \$7,306.18

A listing of the Head Taxes for the year 1965 was in agreement with the control. These taxes are payable to the State of New Hampshire when collected.

TEMPORARY LOANS IN ANTICIPATION OF TAXES — \$100,000.00

The Temporary Loans in Anticipation of Taxes was independently verified with the First National Bank of Boston.

RESERVE FOR HEAD TAXES — \$7,644.78

This amount represents the City's Liability to the State of New Hampshire on the 1965 Head Taxes and is liquidated with the receipts from the Head Tax Levy.

PARKING METERS — \$5,507.27

The above caption is the balance in the Parking Meter account after charges of various expenditures and transfers approved by the Council.

SURPLUS — \$92,286.16

Exhibit A, Schedule 2 details the changes in the Surplus account.

BALANCE SHEET — GENERAL INDEBTEDNESS

EXHIBIT B

The Balance Sheet discloses the City's liability with respect to bonds and notes as at December 15, 1965.

The cash in the various banks was reconciled to both the bank statements and the independent confirmation received from the depositories.

All bonds and coupons cancelled during the year were produced for my inspection and the outstanding coupons reconciled to the bank statements.

BALANCE SHEET — TRUST FUNDS

EXHIBIT C

The Balance Sheet, Trust Funds records the Assets and the sources of such Assets in the custody of the trustees of the Trust Funds.

CASH IN THE BANKS — \$40,938.43

The cash in the Commercial Bank was reconciled to the bank statements and the direct verifications from the depository while the cash in the savings accounts was verified by examination of the pass-books and the confirmation from the savings banks.

INVESTMENTS — \$171,262.47

The securities listed on Exhibit C, Schedule 1 were examined in the presence of a trustee of the Trust Funds.

OVERSEER OF THE POOR — STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS

SCHOOL DISTRICT — STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS

PUBLIC LIBRARY — STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS

I examined the books and records of the above departments and reconciled the bank statements as at the end of the year. All checks cancelled during the year were compared with the cash disbursements records and the receipts were traced to the bank deposits.

PAYROLL

All payroll checks cancelled during the year were examined and the payroll charges proved to the payroll accounts.

CITY CLERK

I tested the books and records in the office of the City Clerk and traced the daily register tapes to the cash receipt books. In addition, I tested the entries on the automobile permits, dog licenses, as well as other business licenses.

I wish to express my appreciation to all the City Officials and the members of their staffs for the cooperation and courtesies extended during the audit.

Respectfully submitted,

Franklin Public Library

REPORT FOR 1965

While the past year has not been one of spectacular achievements, we feel that it has been one of steady progress.

Accumulated gifts have been sorted and many not needed in the collection disposed of by sale or gifts to other libraries. Assistance in weeding law and religious books has been given by Mr. Daniell, Mr. Hatch, Mr. Campbell, and Mr. Hild. Much work remains to be done, and it is hoped to repeat last summer's successful book sale next summer.

1,793 books have been withdrawn from circulation and 1,115 have been added to the collection, resulting in a total of 31,965 volumes in the library. 753 books were purchased, and 362 donated volumes were added.

A total of 41,453 books were circulated, 10,291 of these being juvenile.

These are the figures which represent that part of our work which can be represented by statistics. However, in a service organization the quality of the service, which cannot be evaluated by numbers is of more real importance than accumulated statistics. If there were some way to measure the satisfaction of the student who is helped to find the particular material for which he is searching, the reader for whom the library secures a book he has been longing to read, the child who is guided to a book which becomes a treasured friend or opens up to him a new horizon, the business man who locates a needed fact, this would be a true measure of library service. Unfortunately such a gauge has never been devised, so we try to sense the quality of the service we give, as we strive to reduce to a minimum the questions answered by "I'm sorry, we can't help you" - or "We are unable to secure the book you want", and also to reduce the time between the request and its fulfillment.

With these purposes in mind we have constantly examined our policies trying to simplify work processes, and eliminate unnecessary or less essential procedures. One result was to change from a 14 day loan period on books to a 28 day loan period with no renewals granted. This has saved considerable time formerly spent in sending overdue notices and making renewals.

In April the State Library began making a centralized cataloging service available at no charge to libraries affiliated with the Statewide Library Plan. This has been working very smoothly and has saved not only time in preparing books for circulation but has saved us money since the catalog cards are free. With the money saved we have been able to buy more plastic book jackets which not only add

to the attractiveness of our books but prolong their life.

Under the new Statewide Library Plan, the state has been divided into four districts, each having a council made up of delegates elected by the trustees of each library. In Franklin the Librarian was elected delegate, and Mrs. Piper, Chairman of the Library Board, alternate. The quarterly meetings during the past year have been concerned with setting up the rules by which the Statewide Plan will operate. The Franklin Librarian served as chairman of the committee to recommend procedures in regard to a library card permitting the reader holding one to use any affiliated library in the state.

In May your Librarian was elected Vice-President of the New Hampshire Library Association and in this capacity has attended monthly Executive Board meetings in Concord.

The two New Hampshire Library Trustees' meetings held in May and October were attended by several from the Franklin Board, and Mrs. Krueger took an active part in these and in the New Hampshire Library Association Workshop in October. Staff and trustees also attended the New Hampshire Library Association meetings in May and the Fall Workshop of the Association in October.

Throughout the Spring and Fall Mrs. Krueger continued her story hours the last Saturday of each month. We would like to see a larger attendance of little folk at these half hour entertainments. Mrs. Krueger also told stories to Mrs. Wadleigh's special class during Book Week, and visits to both special classes during that week by the Librarian and Mrs. Krueger resulted in regular monthly visits to the library by Mrs. Wadleigh's class.

It has been the aim of the library to cooperate in every way possible with teachers and students and it has been a pleasure to work with Sister Janet of St. Mary's School Library, and Mrs. Robie of the High School Library. Books this year have been bought with Mrs. Rose's and Mrs. Nudd's English classes and Miss McGinnis's Economics class particularly in mind. We are glad to be able to report improvement in the use of the library by the young people.

We do not, however, feel that we are meeting the needs of our juvenile borrowers. This need cannot be adequately met with the present staff. At least a part-time worker to be in attendance in the children's room in the afternoon hours, to be a liason with schools and teachers, to organize a definite children's program, and, eventually to assume responsibility for improvement of the collection, is our outstanding present need.

Looking ahead, we hope in the next year to establish, with the assistance of Mrs. Keegan's Girl Scout Troop, a book delivery service to inmates of Nursing Homes and other residents of the area who are unable to come for books in person and have no one who can undertake to keep them regularly supplied. This program is just getting

under way, and we hope to be able to report a successful venture another year.

Another project for 1966 is the cataloging and making available for circulation a gift of 78 rpm recordings. It is hoped that eventually we shall be able to augment this collection with 33 1/3 rpm records and tapes.

A third project which will be undertaken if time allows is an inventory of the book collection. This has not been taken for several years, and should be done, a section at a time, to verify and update our records.

In May the Franklin Library suffered in the death of Mrs. John Dempsey, the loss of a good friend who had served for several years as the actively interested Chairman of the Board of Trustees. In October Mrs. Gerard Lemire was appointed to fill her unexpired term, and was reappointed at the expiration of that term in January.

Franklin seems to be exceptionally fortunate in its Library Board each one of which is willing to spend so much time and thought on achieving the best possible service for their city. It has been a pleasant task to work with them, our loyal staff, and the officials of the City of Franklin this past year.

Annual Report of the Superintendent of Schools

SCHOOL FACILITIES

The Home Economics area completed this year has been a major step forward in providing adequate facilities for the Franklin School System. The modern design and equipment of this area will enable the student taking this course to work in surroundings and have experience with equipment that will be comparable to what they will be using when they become homemakers themselves. Esthetically it has changed this area of Franklin High School from a drab, dreary area to an attractive and pleasant place to work and study.

In the annual report of 1964 attention was called to the consistent rise in elementary school enrollments. There was an increase again in September of this year. It became necessary this fall to rent extra space at Thompson Hall to reduce the size of the sections in the first grade. This elementary class numbers over one hundred pupils and is too large for the accommodations within our public school buildings.

The Franklin School System now uses three classrooms to house young children away from the elementary buildings, two at Thompson Hall in West Franklin and one at the Junior - Senior High School Building.

TRANSPORTATION

During the school year 1964-65 school buses continue transporting 700 pupils to school in the morning and home again in the afternoon. In September of 1965 this number increased to 800. This increase made it necessary to make some adjustments in the bus schedules on the elementary routes. It has also brought the loads being carried by each bus up so close to their capacity that there is practically no reserve of seats for the future.

The school buses traveled 56,000 miles during the 1964-65 school year at a cost of \$14,553.26. This is a cost of 26 cents per mile for school transportation. To contract would cost approximately 50 cents per mile.

The following chart shows how each transportation dollar was spent:

Depreciation	20c
Drivers Salary	36c
Gas, Oil, Grease	10c
Insurance	04c
Parts, Tires, Repair	30c

In addition to the economy of school transportation, owning our own buses provides transportation for the summer and winter programs operated by the Franklin Recreation Department.

FINANCE

Following are the operational costs of the Franklin Schools and the average cost of all the schools in the state of New Hampshire for the 1964-65 school year.

	Franklin	Average State of N. H.
Elementary	\$284.24	\$326.99
Junior High School	381.50	437.62
High School	442.57	493.76

School budgets have been rising each year in Franklin and the costs per pupil have gone up. However, the average for the state of New Hampshire has increased even more rapidly.

This has been due to the fact that increased enrollments in our school system has absorbed practically all of the budget increases. This trend should be reversed in the next few years in our secondary schools since it is anticipated that enrollments will be fairly stable for three or four years before increasing again.

At the elementary level the disparity between our costs and the average for New Hampshire will grow even greater until adequate housing and staff are provided for the numbers to be accommodated.

MAINTENANCE

The exterior of the Hancock Building was painted two coats and the interior corridors and stairwells painted one coat. A merrygoround was added to the playground equipment for the primary children.

The Rowell School exterior was painted one coat, window shades were installed in one classroom and small gas tanks were replaced with a large bulk tank. This was installed to meet fire safety regulations and will enable us to purchase gas at less cost. The oil tank was opened and given a thorough cleaning to eliminate water from condensation and sludge accumulation.

At the Junior - Senior High School Building fluorescent lights were installed in the administration, music and physical education offices. The boys locker and shower room was painted, also the physical education offices.

The athletic field bleachers were maintained for rust spots by scraping and repainting and a new chainlink backstop was installed for the baseball diamond.

In addition many minor repairs on the buildings and equipment were completed.

SCHOOL LUNCH

The School Lunch Program is continuing to grow bigger each year. In terms of dollar volume during the 1964-65 school year this program did a \$50,000.00 business. Since this program must operate on a non-profit basis good management is of utmost importance.

The following table clearly shows the growth over the past seven years by comparing the average number of pupil lunches served daily for the month of November for these years.

November 1959	427 lunches
November 1960	431 lunches
November 1961	468 lunches
November 1962	466 lunches
November 1963	582 lunches
November 1964	660 lunches
November 1965	733 lunches

LOOKING AHEAD

The major problem confronting our education system as we look to the future is the lack of adequate elementary classrooms to properly accommodate the number of children attending public school.

Earlier in this report it was pointed out that there are presently three sections of elementary school children housed away from the elementary building. Next school year it is anticipated that it will be necessary to find accommodations for another section.

This housing problem needs immediate attention so that these one hundred children may experience a normal educational opportunity.

Another area that should be looked into is adult education. In the light of requirements for obtaining and holding a position it would seem that the school department could render individuals, the community, and business a genuine service by providing courses in adult education.

Following are the reports from our school principals and supervisors summarizing the work in their field during 1965.

Superintendent of Schools

Report of the School Nurse

1965

School health services include a variety of functions designed to assist in protecting or improving student health and to secure information needed to assist in adapting school programs to the mental and physical abilities and needs of particular students. The home, the school and the community are jointly responsible for conserving the health of all school children. This responsibility can be fulfilled only with the interest, understanding and cooperation of parents and teachers. The following report of the major health activities in the Franklin Schools during the past year points up the cooperative role of the school, the home and the community in conserving the health of the Franklin School children.

Probably no area of activity in school health and education bring so many benefits to so many children at such a low cost in effort and money as does a well planned and administered vision and hearing program in which reliable and valid test procedures are used. Vision and hearing are not only factors in learning which may need attention but they are basic ones which directly influence educational and occupational activities. Vision and hearing can be measured accurately and quickly. When they are below desirable standards they can be improved so readily in a high percentage of cases. Inability to see or hear well is a serious handicap. We in the Franklin schools are most fortunate this year, the School Board has purchased a new T/O School Vision tester. This instrument was designed specifically to fill the need for a quick, accurate and reliable method for identifying those children who are most likely to profit from professional opthalmic services. During the past year over one thousand eight hundred vision tests were given. Resulting in over one hundred thirty-one referrals to the family Ophthalmic Doctor. Of these, eighty-seven students were fitted to new glasses. Five pairs of these were paid for out of the Nurse's Fund. Equally important to the Health services provided for our children is the purchase by the school board of the Maico Audiometer, designed for use in identification test programs in school and industry. Outstanding features include, individually calibrated earphones and dual tone interrupters. Over two thousand hearing tests were given. As a result of these tests over thirty-five children were found to have a hearing loss in one or both ears. These children are under treatment.

The New Hampshire Cripple Children Society sponsored by the New Hampshire Board of Health continues to serve our children with Orthopedic problems. Twenty-one of our students attended Orthopedic Clinics in Concord, Manchester and Hanover. We have two pupils attending Convulsive Disorder Clinics in Concord.

Early treatment is one essential safeguard of good dental health. Prevention of dental disease is another. Dental disease can be pre-

vented by good care of teeth and gums at home, care that includes attention to diet and thorough toothbrushing. It is encouraging to find throughout our schools that a great many of our children are visiting their dentist regularly. Equally disturbing are the many children who quite obviously have never visited a dentist. Early and regular care of the teeth cannot be over stressed. We were fortunate in obtaining without cost teaching materials on dental care for grades K-6. This was accompanied with a talk by the nurse on the value of dental care and health.

Our annual Toxoid Clinic co-sponsored by the Franklin School Health Department and the Franklin Visiting Nurse Association was held during the months of March, April and May with one hundred and sixty children attending. Offered at these clinics were Smallpox Vaccinations, Diphtheria Toxoid Shots, Toxoid Booster Shots and Sabin Polio Vaccine Oral drinks. This clinic was held for the pre-schooler, kindergarten and first graders.

A pre-school clinic was held on May 3rd, 4th and 5th. One hundred and sixteen prospective pupils attended. Twelve blanks were sent to parents of children unable to attend. These children were weighed, measured, vision and hearing tests were given. All children are required to receive a complete physical examination by the family physician prior to entering kindergarten. This enables us to treat any physical or mental handicap accordingly.

Periodic evaluation of our high school athletes' physical condition continues. Under the direction of Dr. Robert Morin each boy and girl participant receives a complete physical examination and urinalysis before active participation is allowed. This service gives those youngsters maximum protection needed by active athletes. Over two hundred and seventy athletes were included in this very complete program, eighty-five received Tetanus Toxoid shots, ninety-six received chest x-rays.

Food baskets, clothing and toys were delivered to some of our needy and deserving families at Thanksgiving and Christmas.

Proper nutrition is a vital concern in any health program, particularly in view of the important part that it plays in the scholastic achievement and the adequate personal and social adjustment of the child to the school situation. One cannot over-estimate the value of the hot lunches served to our school children. I wish to report that the nurse's hot lunch program served two thousand six hundred six lunches during the past year at a cost of three hundred and twenty-five dollars and fifty-four cents. The money for lunches was made available through the generous donations received from the Eelinda Tobie Fund. The Franklin Rotary, Franklin Kiwanis, Catholic Daughters, Lions Club, and the Knights of Columbus. On behalf of the school children, I wish to express my sincere gratitude for their financial assistance to this hot lunch program.

Over three hundred and eighty First Aid Treatments were given during the year.

One hundred and sixty-four house calls were made during the course of the past year.

It has been a pleasure and a privilege working for and with the parents, teachers and the pupils of the Franklin Schools. My sincere thanks to all who make this possible.

ANNUAL REPORT
OF THE
VISITING NURSE'S ASSOCIATION FOR 1965

Mrs. Doucette, the Visiting Nurse, reported that 2202 visits were made in 1965. Of these, 1717 were home visits and 485 were office calls. There were 113 new patients admitted and 88 discharged. The average number of visits per month was 184, the average case load was 45. November was the busiest month with 259 visits.

Mrs. Doucette mentioned that the majority of work being done is with the elderly. The Senior citizen is living longer. In 1965 there were 485 office visits as compared to 330 in 1964.

There were Immunization Clinics held in March, April and May. The local physicians in attendance were Drs. Guay, Morin and Beaudry.

In June of '65 a TB clinic was held in lower City Hall, 47 people had chest X-Rays and were seen by Dr. Robert Kerr.

In June of '65 the State Department of Health had a Mobile X-Ray unit at City Hall for the benefit of the Community.

The mayor and council shall sit and act together and compose one body, and in their joint capacity shall be called the city council.

Section 4. The mayor and council created by this act shall have all the powers, and do and perform, in reference to each other, or otherwise, all the duties which mayor, boards of aldermen, and common councils of cities are by law authorized or required to do and perform, either separately or otherwise; and all provisions of statutes pertaining to the duties or powers of aldermen and common councils of cities, separately or otherwise, shall be construed to apply to said city council unless a contrary intention appears.

Section 5. Said city shall constitute one school-district and the administration of all fiscal, prudential, and district affairs of said district shall be vested in the city council, except such as shall hereinafter be vested in the school board.

Section 6. All property of said town of Franklin, or of the school-district of said town, shall be vested in said city and all debts of said town and said school - district shall be considered for all purposes as the debts of said city.

Section 7. Each ward shall elect one representative to the general

Section 8. Each ward shall at each state biennial election choose by ballot a moderator and three supervisors of checklists, who shall hold office for two years and until their successors are elected and qualified, and serve without pay. Said supervisors shall perform all the duties required by law of selectmen of wards in cities and of supervisors of check-lists in towns and and for all purposes requiring such officers, shall be considered selectmen of said wards. The present board of supervisors of said town of Franklin shall act as supervisors and selectmen of each of said wards until supervisors are chosen by each of said wards at the next biennial election as herein provided. He shall preside in the meetings of the city council, but shall have no vote except in case of an equal division. In his absence the council may elect one of their number chairman, who shall have all the powers and perform all the duties of mayor during his absence or disability, or a vacancy in said office from any cause. The returns of votes provided by law to be made to the city clerk shall

at said first annual election be made to said town supervisors, who shall forthwith perform all the duties in relation thereto which are by law assigned to the mayor and council and city clerk respectively.

Said supervisors shall also select and provide a suitable place for the first meeting of the city council, and seasonably notify the members thereof of the place selected.

Section 21. The question of the adoption of this act shall be submitted to the voters of said town at a legal meeting thereof and if a majority vote of those voting shall be cast in favor, it shall be adopted. If at any meeting this act shall fail of adoption, it may, at the expiration of three months from such meeting and prior to July 5, 1894, be again submitted for adoption. It shall be the duty of the selectmen to call a meeting of the town to act on said question of adoption, in accordance with the foregoing provisions, upon the petition of ten or more voters of said town.
